I admire the business man who meet severyone these days with a smile, who to all appearances is light-hearted, hopeful and optimistic. I know as well as though he had taken me back to his desk and shown me his statements that business has been on the down grade the past year.. I know that many men who are in business, farming and the like, stand a good chance to see the savings of a life time swept away this year at an age in life when it is almost impossible to beat back. When I talk to men like this and they reveal to me a fine, high couage and an optimism and a faith, it bolsters up my own courage and I go back to my work with a feeling that I am not licked until I give up. I find when I have been thus built up inside that my problems lose much of their weight and a load of care seems to slip from my shoulders and I am more free to think and work my best. I do not suppose these fellow business men of mine realize that they have made a big contribution to me, but they always do.

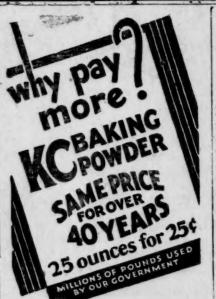

Tomorrow is the birthday of another of America's greatest men. In sying this the inference is that Abraham Lincoln still lives. In the sense that the great never die, this is true. Obliterate such names as Wash ington, Jefferson, John Adams, all the Lees, Andrew Jackson, Roosevelt and Wilson from the catalogue of American life and our country would be dead. These names are the light and glory of our country and its history. In our opinion the last ten years has seen these great names ante-dated, shelved and no longer do our teachers hold them up to the youth of the land as examples. And even the Son of Man is gradually becoming a back number in the minds of a great many of our people. And in this there stands another evidence of our national decay. It is time to awake, if not already too late. Cut out the things that do not redown to national greatness and integrity and hoist high the banner inscribed with such names as mentioned above, and the glory of a once high national life wiff! come back again.

Entertains

Mrs. W. D. Collier entertained the Woman's Missionary So ciety at her home on Main street Tuesday evening. Those attending were Mrs. T. P. Sing leton, Mrs. Lon Blair, Mrs. A. J. Arrington and Mrs. Hall. We had as visitors Mrs. Martha J. Wright, Mrs. W. M. Quillen, Mrs. Carl Thorpe and Mrs. Stephen Blair. A delightful program was given. Refresh! ments were served and all reported a nice time.

Joseph Bolling, god citizen of the head of Cumberland, and Jesse Bolling and Willard Sturgill of Flat Gap were in the ity this week.

> Hays, near seventy, resided on rmerly ek, died a few days ardee, Va.

THE RAILROADS HAVE MADE WITHOUT INTEREST A FIVE BILLION DOLLAR LOAN IN IMPROVED SERVICE

F YOU made a loan, even a small one, and received no inferest on your money, you would certainly feel that you had been treated unfairly.

The railroads of the United States have loaned the public the use of over five billion dollars, for which they have not received one cent interest in the past two years. Incredible as this statement seems, it is true. Read the following figures.

The Interstate Commerce Commission has fixed 53/4 % as a fair rate of return for railroads to earn on the value of

In 1922 the railroads had a total of \$21,200,000,000 invested in property devoted to transportation purposes and earned, that year, 3.59%. Eight years later, in 1930, their property investment had increased to \$26,300,000,000 but only 4% was earned on the 1922 investment. By 1931 the rate of return on the 1922 investment had decreased to 2.57% and the average for the years 1930-1931 fell to less than 3.50%. Yet, in the eight year period, 1922 to 1930, the railroads spent \$5,100,000,000 for improved equipment and service. They are now rendering better service at less cost to you than they were in 1922.

In other words, the railroads have, in effect, loaned the public the use of over five billion dollars for two years, without receiving one cent interest on this vast amount.

This alarming condition has been caused by the present economic depression and has been further intensified by unfair taxation and competition from other transportation agencies. You are vitally interested in the earning power of the rail-

roads because of large holdings of railroad securities by life insurance companies, charitable and financial institutions. The railroads must earn a reasonable rate of interest on

The

Railroads

Must Earn

To Spend

their tremendous investments devoted to public use, if YOUR investments are to be protected.

This can only be accomplished by legislative relief from unfair competition and by increased railroad patronage.

You can cooperate by traveling on the steam railroads and by shipping your freight by rail.

RUN-DOWN and WEAK

"I began taking Cardui when in a weakened, run-down condition," writes Mrs. F. S. Perrit, of Wesson, Miss. "I took one bottle, and I seemed to improve so much that I sent for six bottles. After I had taken the six bottles, I seemed entirely well.

"Before I took Cardui, I was nervous, restless, blue and out of heart. I felt depressed all the time. After I took Cardui, all this disappeared,

"I gave my daughter Cardui and it helped to relieve irregular . . ." This medicine has been used by women for over 50 years.

> As has often been remarked n the Eagle, I hope no reader will get the idea that I am pessimistic. My pen has always been dipped in sunshine and pointed with the music of birds and the perfume of flovers. Often when this heart has been brooding I have tried to break away the gloom and float on silvery lined clouds. For years, in my ruminations, I have sniff ed dangers to our country as a whole and local dangers is at hand. From numbers of itdications I have feare are slipping into a national and human decay, and that this is eating into the very pillars and posts of our government itself and that our boasted and farneralded civilization was in grave danger of being swept into decay, even before we were aware of it. What are the signs of the times? Here we are in the midst of the worst finan-

ial depression world has ever known. Minincial experts, purported statesmen and those at the masthead of our ship of state have stated time out of mind that we were ready to kick off the awful dilemma and start flying again, but we remain fastened to it. With this the Government of the United States is facing the gravest crisis in all its his-

leak and tighten up as never mental, moral and human at- who made "Trader Horn" and tainments. Why, the front with Lionel Barrymore.
